# Geography 301K - Weather and Climate (Unique #37375) Spring Semester 2013

LOCATION AND TIME: Jester A121A, TuTh 11:00am to 12:15pm

INSTRUCTOR: Troy Kimmel, Senior Lecturer CV BIO (Email: tkimmel@austin.utexas.edu )

**TEACHING ASSISTANT:** Lindsey Carte (Email: <u>lindsey.carte@utexas.edu</u> )

**OFFICE:** Liberal Arts Building (Just East of UT Student Activity Center), Room 3.412 **OFFICE HOURS:** Mo/130-300p; TuTh/10:30-10:50am and 145-230p; We/1130a-130p

**PHONES:** Home Office 335-6472 (At times other than office hours)

UT Office 232-1590 (Office hours only), UT Geography Switchboard 471-5116

#### **CLASS OBJECTIVES:**

Our study of weather and climate is intended for Geography majors and all others interested in a broad brush examination of the atmospheric and climatic sciences. This study will be introductory in nature with only a very basic use of mathematics. We will start with a study of meteorology. From this foundation, we will go into the different aspects of the atmosphere and then, later, into climatological matters and discuss the various climatic regimes including that of Texas and the local area.

#### ATTENDANCE:

While this is probably not going to be the hardest course you've ever taken (or will take) in your college career, it is intensive. This is due, primarily, to the amount of material to be covered during the semester. It is, therefore, my philosophy that your success in this course will vary directly with your class attendance. Be aware of the fact that attendance will be taken on a daily basis and this information will be used in the computation of your final class grade. Excessive absences will work against you while perfect attendance can help you to the next highest letter grade in borderline situations at the end of the semester.

Our class time is 11:00am to 12:15pm Tuesdays and Thursdays. Promptness is expected; you should make every effort to be in the classroom by 11:00am. Late arrivals are an interruption to the class material being presented and are unfair to your fellow students that have made the effort to be on time.

### **GRADING PROCEDURE:**

Your final grade will be determined by your numerical performance on the examinations as noted (ALL dates, as indicated on outline, are TENTATIVE and are SUBJECT TO CHANGE):

200 points
200 points
200 points
50 points
200 points
50 points
300 points

Only three of the regular examination scores will count; the lowest of the four grades will be dropped (see MAKE-UP EXAMINATIONS). All numerical scores will be added together to arrive at a possible 1000 points at the end of the semester, where, when utilizing the UT "Plus" / "Minus" Final Grade Grading System and applying it to our 1000 point grading system...

```
900-933 = A- (GPA \ earned = 3.67), \ 934-1000 = A \ (GPA \ earned = 4.00) 800-833 = B- (GPA \ earned = 2.67), \ 834-866 = B \ (GPA \ earned = 3.00), \ 867-899 = B+ (GPA \ earned = 3.33) 700-733 = C- (GPA \ earned = 1.67), \ 734-766 = C \ (GPA \ earned = 2.00), \ 767-799 = C+ (GPA \ earned = 2.33) 600-633 = D- (GPA \ earned = 0.67), \ 634-666 = D \ (GPA \ earned = 1.00), \ 767-799 = D+ (GPA \ earned = 1.33) 0-599 = F \ (GPA \ earned = 0.00)
```

All examinations will be objective (multiple choice). If you have a question regarding your exams, it is your responsibility to visit during office hours when we will access your copy of the exam. Any questions regarding exams will be brought forth within one week of the exam return date otherwise the grade is considered final.

# **AMERICANS WITH DISABILITIES ACT (ADA):**

The University of Austin provides upon request appropriate academic accommodations for qualified students with disabilities. For more information, contact the Division of Diversity and Community Engagement, Services for Students with Disabilities at 471-6259, 471-6441 TTY, 866-329-3986 video phone.

If you have documentation regarding accommodations from the Dean of Students office, you must meet with me, in person and during office hours, as early as possible in the semester to discuss exact accommodations. When you come to this meeting, you will be required to provide written documentation from the Services for Students with Disabilities.

# **CLASSROOM / CAMPUS EMERGENCY ACTION PLANS:**

The status of University of Texas campus activities in times of emergency (i.e., severe/inclement weather) along with some important procedures in case of emergencies on our campus as well as in our classrooms can always be found on the University of Texas Emergency Web Page. The University of Texas maintains Emergency Action Plans that addresses emergencies that could potentially affect the our community. You can reference the various plans here. Our UT Siren System is used in times of emergencies when it is necessary for you to "shelter in place" in campus buildings (remain in or go to the nearest building on campus when the siren is activated and remain there until the "all clear" is given). The UT Siren System, as part of policy, is tested monthly on the first Wednesday of every month between 11:50 am and 12:00 noon. Please don't take the siren system tests for granted; be ready to take action if the siren system is activated! We will discuss, during the first class day of the session, our emergency plan for our specific classroom in case of fire, severe/inclement weather and other different situations. Please take this discussion seriously and ask any questions that you may have!!

## **UT POLICY ON EMAIL NOTIFICATION**

Instructor to student email is a recognized and accepted form of official communication here at the University of Texas. For the University policy, read this. It is critically important that (1) you make sure to have your current and most frequently checked email address on file in UT Direct and (2) you check it on a daily basis. I will send class email frequently during the semester and you'll be given updates and change notices in references to lectures as well as exams.

## **TEXTBOOK MATERIAL:**

We will utilize the following textbook during the semester:

Essentials of Meteorology (6th Edition) - C. Donald Ahrens - Required (Thomson Learning) Goode's World Atlas (22nd Edition) - Recommended (Rand McNally)

These books are available at the University Coop and other campus bookstores as well through on-line textbook web sites. Please shop around for the best price.

Here are some additional on line links that will be useful in class:

METARS / Surface Weather Observations Tutorial (METAR Decoding Exercise) NCAR / World Wide Location Identifier List (NWS Location ID Query System) Kimmel's Cloud / Precipitation Types Tutorial (On Line Learning Module) Kimmel's Severe and Unusual Weather Tutorial (On Line Learning Module) Koppen Climate Classification Flow Chart

NCDC / Local Annual LCD Documents in PDF (Tx Climate Norms: 1971-2000 /1981-2010)

Austin Bergstrom Intl Airport (ID: KAUS):

1999 2000 2001 2002 2003 2004 2005 2006 2007 2008 2009 2010 2011 2012

Austin City (Camp Mabry) (ID: KATT):

1999 2000 2001 2002 2003 2004 2005 2006 2007 2008 2009 2010 2011 2012

#### **MAKE-UP EXAMINATIONS:**

There will be NO make-up "weekly" examinations under ANY CIRCUMSTANCES. It's precisely for the reasons of sickness and other unplanned absences as well as for the occasional "bad" test day that I allow your lowest "weekly" examination score to be dropped. Please note that you are required to take the final exam on the date and time as specified by the University (no excused absences).

#### **EXAMINATION DAYS:**

In order to ensure honesty in the classroom (and given the class size for this particular class and section), please note that I have set guidelines in reference to examination days:

- # Beginning with the handout of the examinations, I expect silence
- # All material that you bring with you on examination day will be placed on the floor under your seat
- # No headwear (caps, hats) will be worn while in our classroom on examination days
- # Once the examination is distributed, there will be no leaving the classroom for any reason.

## **UNIVERSITY OF TEXAS / POLICY ON SCHOLASTIC DISHONESTY:**

In this class, there is zero tolerance for students who violate university rules on scholastic dishonesty with all suspected cases turned over to the University's Dean of Students office. Penalties for scholastic including possibility of failure of course and dismissal from the University. Since dishonesty harms the individual, fellow students and the integrity of the University, policies on scholastic dishonesty will be STRICTLY ENFORCED in this class.

# GEOGRAPHY 301K (SPRING SESSION 2013) TENTATIVE CLASS MATERIAL OUTLINE

Please note that all dates on the syllabus are very tentative and can and will change during the semester. The first three test dates are not specifically listed on the syllabus; exact dates will be announced in class a week (or more) ahead of the actual test dates.

# GRG301K Class Notes - Outline

GRG301K Class Notes - Outline			
DATE	SUBJECT MATTER	TEXT CHAPTERS	
17 Jan	Introduction to Weather Climate and the Atmosphere	Ch 1	
22 Jan	Introduction to Weather, Climate and the Atmosphere Earth-Sun Relationship; Heat Transfer & Balance; Greenhouse Effect,	Ch 2, 3	
0.4.1	Energy Balance	01.0	
24 Jan	Latent Heat, Latitudinal Heat Balance; Heat and Temperature; Temperature Scales, Data, Uses	Ch 3	
29 Jan	Moisture, Moisture Measurements; Atmospheric Stability; Dew/Frost; Cloud Formation; Fogs Types and Formation	Ch 4, 5	
31 Jan -			
5 Feb	Cloud Classification, Types/Features; Precipitation Formation/Types	Ch 5	
EXAMINATIO	ON #1 (Covers in class lecture material roughly pertaining to chapters	s 1 through 6)	
12 - 14 Feb	Atmospheric Pressure; Pressure Readings; The "Standard" Atmosphere; Global Scale/Upper Level Winds; Forces at Work; Wind Measurement	Ch 6	
19 - 21 Feb	General Air Circulation; Jet Streams, El Nino/La Nina/ENSO; Local Scale Winds; Airmasses; Weather Patterns; Cyclogenesis	Ch 7, 8	
26 - 28 Feb 5 Mar	High and Low Pressure Areas; Fronts and Associated Weather Weather Forecasting	Ch 8 Ch 9	
EXAMINATION #2 (Covers in class lecture material roughly pertaining to chapters 6 through 9)			
19 - 21 Mar	Introduction to Thunderstorms; Thunderstorm Hazards - Lightning, Hail, Flash Floods	Ch 10	
26 - 28 Mar	Severe Thunderstorms	Ch 10	
2 - 4 Apr	Tornadoes	Ch 10	
9 - 11 Apr	Tropical Meteorology	Ch 11	
EXAMINATION #3 (Covers in class lecture material roughly pertaining to chapters 10 and 11)			
18 Apr	Introduction to Climatology and Climate Classification	Ch 13	
23 Apr	Koppen Climate Types A (Tropical) and B (Arid)	Ch 13	
25 Apr	Koppen Climate Types C (Subtropical) and D (Temperate)	Ch 13	
20 Apr	Koppen Climate Types E (Polar) and H (Highland)	Ch 13	
	US/Texas/Austin Climate Classification & Climate Change	Ch 14	

# **EXAMINATION #4 (Covers in class lecture material roughly pertaining to chapters 13 and 14)**

Fri /
10 May FINAL GRG301K CUMULATIVE EXAMINATION (9am-1200noon) - REQUIRED

# **GRG301K / PLACE NAME LOCATION LIST**

About Geography - Blank Base Map Web Site On Line Geography Knowledge Quiz

This is a list of geographic locations of which all graduating high school and college students should be aware. Put your atlas skills to work by using your Goode's World Atlas (strongly recommended), get to know the actual locations of each place listed here.

GLOBAL SCALE FEATURES		
* Equator	* Tropic of Cancer	* Tropic of Capricorn
