No Prerequisites

This course explores ideas about gender as they emerge through language and embodied behavior, and the role gender plays in the structure of human interaction and human society. Readings include both ethnographic studies and theoretical work about language and gender across a range of disciplines and cultures. Early on in the course students will collect language data, and this data will be analyzed both collaboratively and individually in terms of the concepts and issues examined in the readings and in class discussions.

Texts:
6. Readings on the Blackboard site.

Requirements: Students will be responsible for engaging actively in class discussions, one individual research paper, and an oral presentation based on the research paper. Each student will sign up to lead or co-lead an introduction to the weekly readings on three different weeks during the semester (including providing a hard copy for each class member and emailing to the class a handout summary).

This syllabus represents my current plans and objectives. As we go through the semester, those plans may need to change to enhance the class learning opportunity. Such changes, communicated clearly, are not unusual and should be expected.

Other Information

Religious Holidays:
Religious holy days sometimes conflict with class and examination schedules. If you miss an examination, work assignment, or other project due to the observance of a religious holy day you will be given an opportunity to complete the work missed within a reasonable time after the absence. It is the policy of The University of Texas at Austin that you must notify your instructor at least fourteen days prior to the classes scheduled on dates you will be absent to observe a religious holy day.

Special Needs:
Students with disabilities who require special accommodations need to get a letter that documents the disability from the Services for Students with Disabilities area of the Office of the Dean of Students (471-6259 voice or 471-4641 TTY for users who are deaf or hard of hearing). This letter should be presented to me at the beginning of the semester and accommodations needed should be discussed at that time. Five business days before an exam the student should remind me of any testing accommodations that will be needed. See following website for more information: http://deanofstudents.utexas.edu/ssd/providing.php

University Electronic Mail Notification Policy (Use of E-mail for Official Correspondence to Students):
All students should become familiar with the University's official e-mail student notification policy. It is the student's responsibility to keep the University informed as to changes in his or her e-mail address. Students are expected to check e-mail on a frequent and regular basis in order to stay current with University-related communications, recognizing that certain communications may be time-critical. It is recommended that e-mail be checked daily, but at a minimum, twice per week. The complete text of this policy and instructions for updating your e-mail address are available at http://www.utexas.edu/its/policies/emailnotify.html. In this course e-mail will be used as a means of communication with you. You will be responsible for checking your e-mail regularly for work and announcements. Note: if you are an employee of the University, your e-mail address in Blackboard is your employee address.

Use of Blackboard in this Class:
This course uses Blackboard, a Web-based course management system in which a password-protected site is created for each course. You will be responsible for checking the Blackboard course site regularly for class work and announcements. As with all computer systems, there are occasional scheduled downtimes as well as unanticipated disruptions. Notification of these disruptions will be posted on the Blackboard login page. Scheduled downtimes are not an excuse for late work. However, if there is an unscheduled downtime for a significant period of time, I will make an adjustment if it occurs close to the due date. Blackboard is available at
Note about Feedback:
Feedback is an important part of learning. Without feedback on how well you understand the material, it is more difficult for you to make good progress. During this course you will give me feedback on your learning in informal and formal ways, such as assignments or exams. Please let me know when something is not clear. This will enable me to provide additional information when needed or to explain a concept in different terms.

Academic Honesty:
Although I encourage you to work together, you are expected to do your own work and acknowledge use of anyone else’s work or ideas. Academic dishonesty includes: (a) copying another student’s work or letting another student copy your work and (b) copying passages or ideas directly from another source and passing them off as your own; that is, without properly referencing them. When scholastic dishonesty is suspected, I am required to notify you and possibly turn the matter over to the Dean of Students office. Penalties for academic dishonesty include a failing grade on the assignment or in this course and possible expulsion form the university. If you have specific questions about these issues, contact the Office of the Dean of Students in FAC 248.

Emergency Evacuation Policy
Occupants of buildings on the UT Austin campus are required to evacuate and assemble outside when a fire alarm is activated or an announcement is made. Please be aware of the following policies regarding evacuation: Familiarize yourself with all exit doors of the classroom and the building. Remember that the nearest exit door may not be the one you used when you entered the building. If you require assistance to evacuate, inform me in writing during the first week of class. In the event of an evacuation, follow my instructions or those of class instructors. Do not re-enter a building unless you’re given instructions by the Austin Fire Department, the UT Austin Police Department, or the Fire Prevention Services office.
