TAM 312 K: Syllabus
INTERMEDIATE TAMIL I

MEETING DAYS:
FACULTY: Sankaran Radhakrishnan Ph.D.
Office hours:

Course description:
TAM 312K provides the second year of training in Tamil. The course meets three hours per week and carries three hours of credit. Since the learners already learnt spoken Tamil in the first year, now began to learn Modern Written Tamil and be able to often compare with Spoken forms. Spoken-Written differences will be brought to the learners and worked extensively through plenty of examples and exercises. Specially designed materials help the learners to understand and practice these differences very much. Usually, one hour per week will be devoted to the lesson introduction (core text lessons), one to detailed explanation of the materials in the lesson, and one to reading passages, and conversation. Learners will begin to get complete knowledge of basic and complex structures and their use. For this, variety of interesting exercises, graded compositions, reading comprehensions, listening comprehensions, and translation passages will be used.
Various kinds of graded composition, reading comprehension, and translation passages will be provided. Conversational Tamil also part of the course.

The learner’s difficulty in understanding the use of advanced language and its structures and the curiosity in the absence of an immersion environment to know more about the culture is always found among learners. For this, other than the core materials, number of interesting lessons, reading, listening, comprehension, composition, newspaper materials will be used as supplementary and remedial materials in the class. In the second level of Intermediate Tamil towards the end, audio materials on different topics about Tamil culture, language, games, historically important places, dances, folk traditions, etc., are used. Tamil movies, clips, slides, pictures, transparencies, videos on culture, art, architecture, etc. will also be used in both semesters.

Objectives (for Second year Tamil-two semesters):
Learner is:
-able to handle most uncomplicated communicative tasks and social situations. Can initiate, sustain, and close a general conversation with a number of strategies appropriate to a range of circumstances and topics to some extend. Vocabulary development helps to avoid hesitation in using language to form connected discourse in simple narration and/or description.

-able to sustain understanding over longer stretches of connected discourse on a number of topics pertaining to different times and places. Gain skills to grasp main ideas and/or details.

-able to understand simple texts dealing with basic personal and social needs. Get some main ideas and information from texts featuring description and narration.

Reading practice will be given to read text several times for understanding.

Get practice on content words and time expressions to express time, tense with precision; verbal inflections. Gain skills to describe and narrate in paragraphs.

Materials (Radhakrishnan):
“Intermediate Tamil” (Print materials)
“Intermediate Tamil” (Audio CD)
“Conversion Rules for Tamil: Written → Spoken” (print with lots of exercises)
“Pictorial Learning”

In the “Intermediate Tamil” book variety of passages on various language and cultural aspects of Tamil heritage are found. These passages are designed to inculcate interest among the learners of Tamil for further learning of Tamil and understanding of Tamil culture.

The beginners through one year Tamil learning learned the basic skills of language learning, graded structures, and a quite handsome amount of vocabulary. Through the first year courses the learners are motivated to think more about the real functional use of Tamil for their future aims and goals. Hence the “Intermediate Tamil” book aims to explain the complex structures of Tamil in detail and their use; thus helps the learners to develop higher order skills for effective language use. The major focus of the “Intermediate Tamil” is vocabulary development, translation practice, and development of literary appreciation skill, increased cultural understanding and much more.

Each lesson is structure free and includes a glossary, grammatical notes, exercises, assignments, and cultural or historical notes wherever needed. All the lessons in the book, “Intermediate Tamil” are on CD to practice reading and increase reading speed. Each lesson is read three times with different speed (slow reading with a gap to repeat; with little speed with a gap to repeat and to normal speed with gap to repeat).

At the beginning, a sample conjugation list of strong and weak verbs are given. Following the verb conjugation, “Tamil Conversion Rules”’ are provided with suitable examples, exercises and tests to work and practice for easy understanding of the written and spoken dichotomy that persists in Tamil. The lessons in “Intermediate Tamil” are on different interesting topics, like festivals, short stories, letters, stories, modern poems, Tamil etiquette, village temple festival, literary personalities, and reading comprehension passages. At the end, a translation part is included to translate. This will help the learners to evaluate their understanding of the basic Tamil structures. Finally, an exhaustive list of useful vocabulary on 28 different culture bound topics is provided for the learners to work with it for vocabulary development, their use and increased cultural understanding.
Learners are expected to keep the print lessons (seven lessons for this semester) before them and listen carefully the audio CD and repeat each and every lesson many times till they reach normal reading speed.
