Course Description: This course will examine the expository and narrative conceptual aspects of American Sign Language. It is an intermediate ASL course that will include the following themes: 1) conversational skills; 2) translating written text into ASL; 3) conceptual presentation; 4) re-telling/analyzing ASL stories; 5) grammatical aspects; 6) conceptually accurate signs including definitions & semantic signs; and 7) Deaf Culture norms and values. Regarding the production part, the students will provide a video project for each unit that presents narratives with ASL aspects.

Prerequisites: ASL 312K with at least a C (70%) or above; or completed ASL 4, specifically using Signing Naturally 1 & 2 from other colleges or universities.

Course Rationale: American Sign Language is the language of a sizable minority, estimates range from 500,000 to two million speakers in the U.S. alone. In addition, Deaf Canadians use ASL. For more information, you can look at the website: http://library.galaxiedt.library.Deaf_Research_Help/Frequently_Asked_Questions_(FAQs)/Sign_Language/ASL_Ranking_and_Number_of_Speakers.html

Pass-Fail: Please note that you are taking this course for a grade. A Pass-fail grade is not an option in this class. We have our own VALUES AND EXPECTATIONS. I DON’T FEEL THERE IS ANY BASIS FOR COMPARING MY CLASS with other classes. I don’t tolerate anyone cheating on exams or assignments. I have my own expectations from the students. Each of us has to establish standards for our classes. Mine includes zero tolerance for cheating and very high expectations from my students. It is essential that students make every effort to attend every class on time and be prepared to participate in all activities.

Rationale: This is a skill developing lab course involving group and individual practice and skill development using visual/gestural stimuli. There is no way to make up an absence. Missing class or being late to class truly hinders your progress. The skills you need in this class depend on visual perception and memory. Use of auditory stimuli inhibits this learning process of both the person talking and other students in the class. In this class, students will experience cross-cultural interaction between Deaf and Hearing people. It is important that students recognize and respect this sensitive area and the Deaf person’s resentment at the discriminatory and thoughtless use of voice in his/her presence.

ATTENDANCE/PARTICIPATION: Anytime you miss a class, it is your responsibility to check Blackboard to see if you were counted absent. Please see me if the record is not correct.

Attendance Policy: Beginning January 21st, participation will be graded in the following manner:

You should plan to attend class faithfully, inasmuch as the material covered in class and participation in class discussion are vital to your performance in this course. Attendance will be taken every class period. You should check periodically with me to ensure that we agree on your number of absences. You are allowed three (3) absences over the course of the semester. For each absence beyond three (3), your final grade will drop by 5%. For example, if you earned an A with a 92 for the course, but you have four (4) absences, your final grade will be a B (87), regardless of the reason. Use your absences as you see fit; however, use them with discretion. These days are given to you to make accommodations for illnesses, doctors’ appointments, observance of religious holy days, etc. A total of three (3) tardies and early departures will be counted as one (1) absence.
The University’s policy on the observance of Religious Holy Days can be found at: [http://registrar.utexas.edu/catalogs/gi07-08/ch04/ch04b.html](http://registrar.utexas.edu/catalogs/gi07-08/ch04/ch04b.html). Observance of Religious Holy Days: Students must notify instructor at least 14 days prior to holy days; otherwise, it will be counted as absence. [http://www.interfaithcalendar.org](http://www.interfaithcalendar.org)

It is essential that students make every effort to attend each class on time and be prepared to participate in classroom activities. Attention to classroom activities is imperative.

**Course Packet/Assignments:** Assignments are not optional; they are required to help prepare you for class activities/discussions. Students who fail to provide completed assignments the day they are due that will affect your learning abilities/skills in class. Please be courteous to your homework partners and do your part to develop the activities. For example, how would you feel if you worked hard to finish your part of the homework but your partner didn’t take responsibility for their part? Please be respectful of the lecturer and your classmates by doing your work. Also, please bring your Signing Naturally Student Workbook, course packet, and homework assignments to class everyday.

**Classroom Etiquette:** Behaviors such as sleeping in class, reading the newspaper, talking/mouthing with classmates, using pagers/cell phones/text messaging devices, listening to iPod music, or doing homework for another class are not acceptable or permitted. This is a skill developing lab course involving group and individual practice and skills development using visual/gestural stimuli.

**Social/Cultural Rationale:**

**Visual Environment:** The skills for learning ASL depend on visual perception. The use of auditory stimuli inhibits this visual learning process for both the person talking and for the other students in class. Furthermore, it is important that students recognize and respect a very sensitive topic in the Deaf community; a Deaf person may feel offended at the discriminatory and thoughtless use of voice in/around his presence. Talking with another hearing student without signing when a Deaf person is around is considered rude in the Deaf community. As a member of that community, I, as a Deaf lecturer, will remind students to refrain from using their voices because this ASL course is about the Deaf way of communicating, not the hearing one. Naturally, signed communication makes the Deaf community culturally distinctive, which means norms and values are dissimilar to mainstream hearing culture. Additionally, one of the common questions Deaf people in the larger community tend to ask hearing students, is “Who’s your teacher?” and of course it is not an innocent question. One possible reason they may ask such a question is to determine how well you sign, as well as the level of your awareness about Deaf culture. In other words, your ASL skills reflect on me as a Deaf teacher. **NOTE:** Repetition of using voice in class may result in deduction of points and/or the deduction of a letter grade from your final score. If you do not understand me, then PLEASE ask me ANYTIME for clarification.

**DEAF CULTURE note:** In class, you will rehearse ways of informing the instructor why you are late, why you are leaving early, and why you missed class. These are not to be viewed as giving excuses but rather viewed as a way of communication. So, please apply this method each time it occurs.

**Talking/voicing Policies:** This policy is the same as in ASL 506, 507, 312K, and 312L, this policy will not be reviewed this semester, but will be implemented. The intention of the **NO VOICE POLICY** is to respect Deaf Culture and maximize the student’s learning during class time. Due to the fact that facial expressions are vital in ASL, gum chewing is not permitted during class. Cellular phones, paging devices, radios, CD and tape players/recorders, video cameras and still cameras should not be brought into the classroom without the instructor’s written consent. (If you need your cell phone with you please make sure that it is turned off so that it does not disrupt the silence in the classroom.)

**THE PACE AND SEQUENCE WILL DEPEND ON PROGRESS MADE IN CLASS.**

**MAJOR ASSIGNMENTS:** No emailed assignments are acceptable. Some criteria attachments will be posted on Blackboard at a later time.

You will see this icon **Please put it in a PORTFOLIO WITH YOUR SCRIPT, EVALUATIONS, AND USB/FLASH CARD on the day when you share your story with your classmate or for a class project.** The lecturer will announce if you need to provide your USB with your portfolio or if we will record your presentation in class.
