Use of Class Materials
The materials used in this class, including, but not limited to, exams, quizzes, and homework assignments are copyright protected works. Any unauthorized copying and selling of the class materials is a violation of federal law and may result in disciplinary actions being taken against the student. Additionally, the sharing of class materials without the specific, express approval of the instructor may be a violation of the University’s Student Honor Code and an act of academic dishonesty, which could result in further disciplinary action. This includes, among other things, uploading any and all class materials (including class notes) to web sites for the purpose of selling and/or sharing those materials with other current or future students.

“Non Technology” Classroom (for “in person” class)
I prohibit the use of laptop computers and smart phones (including texting) during class time unless specified by the instructor and/or TA. This is a “zero tolerance” policy - we will be monitoring the classroom and will stop lecture and ask anyone using a device to turn it off. My expectation is that you are here to listen to and take part in lecture. Accordingly, your class notes must be taken with paper and pen.

On Line Class (Unique #37214) Time -  M, W 1:00pm-2:15pm
In Person Class (Unique #37210) Location and Time -  TTh 11:00am-12:15pm in JES A121A Auditorium

INSTRUCTOR: Troy Kimmel, Senior Lecturer CV BIO (Email: tkimmel@austin.utexas.edu )
TEACHING ASSISTANT (for M,W 100pm Online Class): Cho (Qiuying) Lai (Email: qylai@utexas.edu)
TEACHING ASSISTANT (for T,Th 1100am In Person Class): Dan Levine (Email: dslevine@utexas.edu)
OFFICE: Liberal Arts Building - CLA (Just east of UT Student Activity Center), Room 3.412
OFFICE HOURS (11 Hours Weekly): M/W 1100am-1230pm & 230pm-430pm  --  Tu/Th 1230pm-150pm --  Tu only 345pm-445pm
PHONES: Home Office 512-335-6472 - auto forwards to my cell (At all times other than office hours)  
UT Office 512-232-1590 (Office hours only), UT Geography Switchboard 512-471-5116

CLASS OBJECTIVES:
Our study of weather and climate is intended for Geography / Environment majors and all others interested in a broad brush examination of the atmospheric and climatic sciences. This study will be introductory in nature with only a very basic use of mathematics. We will start with a study of meteorology. From this foundation, we will go into the different aspects of the atmosphere and then, later, into climatological matters and discuss the various climatic regimes including that of Texas and the local area.

ATTENDANCE:
While this is probably not going to be the hardest course you've ever taken (or will take) in your college career, it is intensive. This is due, primarily, to the amount of material to be covered during the semester. It is, therefore, my philosophy that your success in this course will vary directly with your class attendance. Be aware of the fact that attendance will be taken on a daily basis; in the “in person” class, through the SquareCap classroom management application (which will be necessary for you to purchase); we will be using this application through your smart phone web browser. In the “on line” class, we will use existing software so no other purchases necessary. In both classes, this attendance information will be used in the computation of your final class grade. Excessive absences will work against you while perfect attendance can help you to the next highest letter grade in borderline situations at the end of the semester.

Regarding our class time (on line or in person), promptness is expected; you should make every effort to be in the classroom or on line at the times indicated. In the “in person class,” late arrivals are an interruption to the class material being presented and are unfair to your fellow students that have made the effort to be on time.

UNIVERSITY OF TEXAS / POLICY ON SCHOLASTIC DISHONESTY:
In this class, there is zero tolerance for students who violate university rules on scholastic dishonesty with all suspected cases turned over to the University’s Dean of Students office. Penalties for scholastic include the possibility of failure of course and dismissal from the University. Since dishonesty harms the individual, fellow students and the integrity of the University, policies on scholastic dishonesty will be STRICTLY ENFORCED in this class.

AMERICANS WITH DISABILITIES ACT (ADA):
The University of Austin provides upon request appropriate academic accommodations for qualified students with disabilities. For more information, contact the Division of Diversity and Community Engagement, Services for Students with Disabilities at 471-6259, 471-6441 TTY, 866-329-3986 video phone. If you have documentation regarding accommodations from the Dean of Students office, you must meet with me, in person and during office hours, as early as possible in the semester to discuss exact accommodations. When you come to this meeting, you will be required to provide written documentation from the Services for Students with Disabilities. Accommodations are NOT effective until you meet with me in office hours with your paperwork. No exceptions.
TEXTBOOK MATERIAL:
We will utilize the following textbook during the semester:
Essentials of Meteorology (8th Edition) - C. Donald Ahrens - Required (No other publisher material needed, so new or used OK)
Goode’s World Atlas (22nd Edition) - Recommended

These books are available at the University Coop and other campus bookstores as well through on-line textbook web sites. Please shop around for the best price.

GRADING PROCEDURE:
Your final grade will be determined by your numerical performance on the examinations as noted:
Examination #1                  200 points
Examination #2                  200 points
Examination #3                  200 points
Place Name Examination         50 points
Examination #4                  200 points
Attendance Pop Quizzes/Exercises 50 points
Final Cumulative Exam          300 points

Only three of the regular examination scores will count; the lowest of the four grades will be dropped (see MAKE-UP EXAMINATIONS). All numerical scores will be added together to arrive at a possible 1000 points at the end of the semester, where, when utilizing the UT “Plus” / “Minus” Final Grade Grading System and applying it to our 1000 point grading system...
900-933 = A- (GPA earned = 3.67), 934-1000 = A (GPA earned = 4.00)
800-833 = B- (GPA earned = 2.67), 834-866 = B (GPA earned = 3.00), 867-899 = B+ (GPA earned = 3.33)
700-733 = C- (GPA earned = 1.67), 734-766 = C (GPA earned = 2.00), 767-799 = C+ (GPA earned = 2.33)
600-633 = D- (GPA earned = 0.67), 634-666 = D (GPA earned = 1.00), 767-799 = D+ (GPA earned = 1.33)
0-599 = F (GPA earned = 0.00)

All examinations will be objective (multiple choice). Exams will not be returned to you although your exam key (showing you the number of the question you missed) will be available through Canvas after each exam; If you want to see an exam or go over your answers, you must bring a paper copy of your exam key or a piece of paper indicating the questions you missed during office hours. Any questions regarding exams will be brought forth within the specified number of days after the exam date otherwise the grade is considered final.

MAKE-UP EXAMINATIONS:
There will be NO make-up of the four regular examinations under ANY CIRCUMSTANCES. It's precisely for the reasons of sickness and other unplanned absences as well as for the occasional "bad" test day that I allow the lowest of your regular four examination scores to be dropped. Also, please note that you are required to take the final exam on the date and time as specified by the University (no excused absences).

EXAMINATION DAYS:
In order to ensure honesty in the classroom (and given the class size for this particular class and section), please note that I have set guidelines in reference to examination days:
# Beginning with the handout of the examinations, I expect silence
# All material that you bring with you on examination day will be placed on the floor under your seat
# No headwear (caps, hats, hoodies) will be worn while in our classroom on examination days
# Once the examination is distributed, there will be no leaving the classroom for any reason.

CLASSROOM / CAMPUS EMERGENCY ACTION PLANS:
The status of University of Texas campus activities in times of emergency (i.e., severe/inclement weather) along with some important procedures in case of emergencies on our campus as well as in our classrooms can always be found on the University of Texas Emergency Web Page. The University of Texas maintains Emergency Action Plans that addresses emergencies that could potentially affect the our community. You can reference the various plans here. Our UT Siren System is used in times of emergencies when it is necessary for you to "shelter in place" in campus buildings (remain in or go to the nearest building on campus when the siren is activated and remain there until the "all clear" is given). The UT Siren System, as part of policy, is tested monthly on the first Wednesday of every month between 11:50 am and 12:00 noon. Please don't take the siren system tests for granted; be ready to take action if the siren system is activated! We will discuss, during the first class day of the session, our emergency plan for our specific classroom in case of fire, severe/inclement weather and other different situations. Please take this discussion seriously and ask any questions that you may have!!

UT POLICY ON EMAIL NOTIFICATION
Instructor to student email is a recognized and accepted form of official communication here at the University of Texas. It is critically important that (1) you make sure to have your current and most frequently checked email address on file in UT Direct and (2) you check it on a daily basis. I will send class email frequently during the semester and you'll be given updates and change notices in references to lectures as well as exams.

**Mon/Tue 13-14Feb......EXAMINATION #1 (Covered in class lecture material - Roughly Ch 1 - 5)**

| 15 Feb-07 Mar (6 Class Sessions) | Cloud Classification, Types/Features; Precipitation Formation/Types | Ch 5 |
| | Atmospheric Pressure; Pressure Readings; The "Standard" Atmosphere; Global Scale/Upper Level Winds; Forces at Work; Wind Measurement | Ch 6 |
| | General Air Circulation; Jet Streams, El Nino/La Nina/ENSO; Local Scale Winds; Air Masses; Weather Patterns; Cyclogenesis | Ch 7, 8 |

**Wed/Thu 08-09Mar......EXAMINATION #2 (Covered in class lecture material - Roughly Ch 6 - 8)**

**Mon-Fri 13-17 Mar...... SPRING BREAK**

| 20 Mar-06 Apr (6 Class Sessions) | High and Low Pressure Areas; Fronts and Associated Weather | Ch 8 |
| | Weather Forecasting | Ch 9 |
| | Introduction to Thunderstorms; Thunderstorm Hazards - Lightning, Hail, Flash Floods | Ch 10 |

**Mon/Tue 03-04Apr......PLACE NAME EXAMINATION**

**Mon/Tue 10-11Apr......EXAMINATION #3 (Covered in class lecture material - Roughly Ch 9-10)**

| 12 Apr-02 May (6 Class Sessions) | Tornadoes | Ch 10 |
| | Tropical Meteorology | Ch 11 |
| | Introduction to Climatology and Climate Classification | Ch 13 |
| | Koppen Climate Types A (Tropical) and B (Arid) | Ch 13 |
| | Koppen Climate Types C (Subtropical) and D (Temperate) | Ch 13 |
| | Koppen Climate Types E (Polar) and H (Highland) | Ch 13 |
| | US/Texas/Austin Climate Classification & Climate Change | Ch 14 |

**Wed/Thu 03-04May......EXAMINATION #4 (Covered in class lecture material - Roughly Ch 10 - 14)**

**Fri/05May......FINAL REVIEW SESSION (JES A121A), 5:00pm to 7:00pm (ALL CLASSES)**

**Fri/05May - Mon/08 May - Tues/09May......FINAL OFFICE HOURS (ALL CLASSES)**

**Wed/10 May 9am to 12 noon...... FINAL GRG301K On Line Class CUMULATIVE EXAMINATION (JES A121A)**

**Wed/10 May 7pm to 10 pm...... FINAL GRG301K In Person Class CUMULATIVE EXAMINATION (JES A121A)**
This is a list of geographic locations of which all graduating high school and college students should be aware. Put your atlas skills to work by using your Goode’s World Atlas (strongly recommended), get to know the actual locations of each place listed here.

**GLOBAL SCALE FEATURES**
- Equator
- Arctic Circle
- South Pole
- Tropic of Cancer
- Antarctic Circle
- Prime Meridian
- Tropic of Capricorn
- North Pole
- International Date Line
- Arctic Circle
- Antarctic Circle
- North Pole
- South Pole
- Prime Meridian
- International Date Line

**CONTINENTS**
- Europe
- South America
- Australia
- Africa
- Asia
- North America
- Antarctica

**OCEANS**
- Atlantic
- Arctic
- Pacific
- Indian

**SEAS, BAYS, GULFS, STRAITS, CHANNELS, PASSAGES, CANALS**
- Mediterranean Sea
- Black Sea
- Arabian Sea
- South China Sea
- Gulf of Mexico
- Strait of Florida
- Drake Passage
- North Sea
- Strait of Hormuz
- Strait of Gibraltar
- Suez Canal
- Persian/Arabian Gulf
- Gulf of Alaska
- Caribbean Sea
- Windward Passage
- Cape of Good Hope
- Yucatan Channel
- Prince William Sound
- Dardanelles
- Red Sea
- Bay of Bengal
- Hudson Bay
- Panama Canal
- Strait of Magellan
- Cape Horn
- Bering Sea

**MAJOR ISLANDS AND ISLAND GROUPS**
- Greenland
- Lesser Antilles
- Cyprus
- New Guinea
- Aleutian Islands
- Azores
- Bermuda
- Philippines
- Iceland
- British Isles
- Sicily
- Taiwan
- Hawaiian Islands
- Canary Islands

- Bahama Islands
- Windward Islands

**OCEAN CURRENTS**
- North Equatorial Current
- Gulf Stream
- East Brazil Current
- Alaska Current
- Equatorial Counter Current
- Labrador Current
- Japan (Kuroshio) Current
- Peru (Humboldt) Current
- South Equatorial Current
- Canary Current
- California Current
- East Australian Current

**MAJOR MOUNTAIN RANGES, PLATEAUS AND BASINS**
- Alps
- Brazilian Highlands
- Hindu Kush Mountains
- Congo Basin
- Iranian Plateau
- Andes Mountains
- Arabian Plateau
- Rocky Mountains
- Great Basin
- Atlas Mountains
- Himalayas
- Ural Mountains
- Amazon Basin

**DESERTS**
- Atacama
- Kalahari
- Mojave
- Australian
- Patagonian
- Sonora
- Gobi
- Sahara
- Chihuahua

**PENINSULAS**
- Arabian
- Florida
- Italian
- Scandinavian
- Labrador
- Balkan
- Iberian
- Indochina
- Yucatan
- Palmer (Antarctic)
- Crimea
- Korean
- Indian
- Baja California
## NORTH AMERICAN PHYSICAL FEATURES

- Sierra Nevada
- Appalachians
- Baffin Island
- Newfoundland
- James Bay
- Tampa Bay
- Long Island Sound
- Lake Superior
- Lake Erie
- Lake Okeechobee
- Fraser River
- Mississippi River
- Ohio River
- Potomac River
- Red River (Texas/Oklahoma)

### CANADIAN PROVINCES

- Prince Edward Island
- Newfoundland
- Manitoba
- British Columbia

### CANADIAN TERRITORIES

- Northwest Territories
- Yukon

### UNITED STATES

- North All Fifty States and the State Capital of Each
- District of Columbia

### MEXICO

- Know That it Consists of 31 States and Federal District of Mexico City
- Know Locations of the U.S./ Mexico Border States:

### CENTRAL AMERICAN REGION

- Belize
- Honduras
- Panama

### CARIBBEAN REGION

- Puerto Rico
