GRANT PROPOSALS BY SPONSOR

In 2015, the Liberal Arts Grants Services Office assisted faculty and students with their grant proposal submissions to a variety of organizations. The majority of proposal submissions went to federal agencies including the National Science Foundation and the National Endowment for the Humanities.

- U.S. Government: 54%
- U.S. Foundations & Non-profits: 29%
- U.S. Universities: 9%
- International Universities: 3%
- State of Texas: 3%
- International Governments: 2%
OUTREACH EFFORTS

Grants Digest:
The Grants Digest provides access to funding opportunities appropriate for College faculty and graduate students. Each week, the Grants Digest is emailed to a growing subscription totaling over 500 subscribers and posted weekly on the office’s website.

Website:
The Liberal Arts Grants Services website is a popular resource for College faculty and graduate students, receiving almost 7,000 visits in 2015. The site makes available a variety of resources for grant proposal development, including funding opportunities, proposal submission timelines, and application guidelines.

Workshops:
The Grants Services office conducted workshops throughout the year, educating over 150 College faculty, staff, and graduate students about grant related topics including grant search strategies; how to utilize the Liberal Arts Grants Services Office and Office of Sponsored Projects; and developing compliant and successful budgets.

Meetings with Faculty, Staff, and Graduate Students:
Throughout 2015, the Grants Services office staff met with nearly 100 members of the College community and provided a large number of phone consultations to assist with questions and ideas related to the grant application process as well as with proposal submission. Topics frequently discussed include identifying project-specific funding opportunities; establishing proposal preparation timelines; and best practices in grant application submissions.

---

i This figure does not represent all grant proposals and submissions within the College, as it excludes applications facilitated by grants and contracts specialists in some of the College’s units. Units submitting independently include the Teresa Lozano Long Institute of Latin American Studies (LLILAS), Middle Eastern Studies, the Population Research Center (PRC), Psychology, and the Institute for Urban Policy Research & Analysis.

ii Additionally, several College units (noted above) submitted nearly fifty grant proposals to the National Institutes of Health.
