“Drones and Democratic Accountability” Event

The Robert S. Strauss Center for International Security and Law invites you to an International Security Speakers Series event with Dr. Sarah Kreps of Cornell University titled “Drones and Democratic Accountability” on Tuesday, October 15th from 12:15-1:30pm in SRH 3.122.

In the last decade, the use of unmanned aerial vehicles, otherwise known as drones, has risen considerably. From just a handful of strikes early in the decade, drones have become a central feature of American counter-terrorism policy. Drones are less expensive and lower-risk than manned aircraft, but does shielding the public from the costs of war decouple the accountability linkages that underlie democratic conduct in conflict? In short, how does the use of drones affect democratic accountability? And how does the marketplace of ideas shape the drone debate? Kreps will answer these questions with evidence from public opinion surveys and original survey experiments that query Americans’ attitudes toward drone warfare. The findings point to the constrained ideological space in which the drone debate takes place. They also suggest ways for non-governmental and international organizations to broaden that space and meaningfully shape public attitudes on the policy. To the extent that these attitudes form the incentives leaders face to continue or modify policies, these findings have important implications not just for democratic theories of accountability in wartime but also contemporary debates about counter-terrorism policy.

Sarah E. Kreps is an assistant professor in the Department of Government at Cornell University, an adjunct professor at Cornell Law School, and in 2013-2014 a Stanton Nuclear Security Fellow at the Council on Foreign Relations. She is the author of Coalitions of Convenience: United States Military Interventions after the Cold War (New York, NY: Oxford University Press, 2011). She received her BA from Harvard University, her MSc from Oxford University, and her PhD from Georgetown University. Before going to graduate school, she served as an acquisitions and foreign area officer in the United States Air Force.

Flu Shots for Students

Getting a flu shot is the best way to prevent the flu.

The US Centers for Disease Control and Prevention recommend that everyone gets a flu shot every year, unless there are medical reasons they shouldn’t. It takes about two weeks after getting the shot to have optimal protection. Flu season usually starts in October. The flu shot won’t give you the flu. UHS administers the inactivated virus flu vaccine. The viruses in inactivated vaccine have been killed, so you can’t get the flu from the shot.

Insurance billed for: Students with health insurance (except for HMO plans, plans underwritten by insurance companies based outside the United States, or government plans such as Medicare, Medicaid, and Tricare).

NOTE: If your insurance plan won’t pay for a flu shot charge after UHS files a claim, the unpaid balance will be billed your What I Owe. You will be responsible for paying that amount. Insured Students Only - Speed up your flu shot clinic check-in! Enter your insurance information in advance online if you haven’t done so for a prior UHS visit at MY UHS: https://portal.uhs.utexas.edu/login_directory.aspx

Students with no insurance, HMO plans, insurance plans with companies based outside of the United States or government plans such as Medicare, Medicaid, and Tricare: $10 charge.

STUDY ABROAD

Oxford English Program

The Department of English at The University of Texas at Austin has sponsored a summer program at Oxford since 1984. The Oxford Summer Program gathers students to enjoy life and literature at the University of Oxford, the oldest English-speaking university in the world. In Summer 2014,
the Program will be housed in Wadham College. Students take one or two upper-division English classes and enjoy many field trips and theatrical performances. This program is a wonderful balance of academics and fun, an opportunity to get to know Department of English faculty and other students outside the classroom, and a chance to live in an early 17th-century English college in modern-day Oxford.

Each program is highly interdisciplinary and features daily lectures and discussions with renowned academics, journalists, politicians and activists, as well as site visits to government agencies, non-profit and community organizations, museums and memorials. The programs seek to highlight different models of action to remedy injustice.

The objective of the Humanity in Action Fellowship is to facilitate a collective exploration of the social and political roots of discrimination, as well as to provide a forum where potential solutions to some of today's most challenging issues can be considered and discussed. The programs are also intended to instill a responsibility among Humanity in Action Fellows to recognize and address the need to protect minorities and promote human rights—in their own communities and around the world.

During the 4-week Maymester (mid May-mid June), students examine the sociocultural history of Ghana including the role of colonialism in influencing the country's prevailing societal issues. In addition to lectures and excursions to Cape Coast and the ancient Ashanti region, students actively engage in hands-on community service projects working alongside Ghanaian university peers on service projects in the country's capital city of Accra. Service projects include helping schools to build libraries, organizing health promotion campaigns, supporting a women's micro lending program, training youth leaders and young entrepreneurs, and infrastructure building for a boys' home/orphanage. Students also participate in a reforestation tree-planting project after meeting with local chiefs and queen mothers in rural Ashanti villages.

Over fifty years after gaining its independence, Ghana has recently established new priorities around vigorous infrastructure development and enhanced social and community services. Through this course, students have the opportunity to study Ghanaian social and community development programs and non-governmental organizations (NGOs) that are actively responding to Ghana's major social service needs in the areas of education, child and family welfare, gender empowerment, youth programs and health promotion.

The course involves both experiential and classroom learning with a significant international academic service learning component that allows students to develop and implement a small-scale volunteer project as a major course assignment. The course content will dovetail with the nature of community service in critical ways to ensure that 1) student learning is enhanced, 2) small-scale community needs are met, and 3) students are able to critically reflect upon their community service experience. In addition, students will take part in educational excursions including tours of the Cape Coast slave fortresses, Kakum National Park, rural villages in the country’s Ashanti region, and the Agogo Village Reforestation Project.

Your ability to pay strict attention to detail will be crucial, and you'll apply both research and problem-solving skills while also drawing upon your knowledge of current events. You'll work a four- to five-day week, depending on your assignments for the Sports Illustrated weekly magazine and Sports Illustrated Presents, which produces commemorative issues. (SI has also welcomed two photo interns from UT, and they have worked mostly for the remaining a full-time student.

The program: Sports Illustrated offers a full-time, paid internship, which allows qualified UT students to earn up to six hours of academic credit, depending on internship guidelines in each college or academic unit.

As an intern at Sports Illustrated, your primary job will be as a fact-checker for stories that will appear in the weekly magazine. Your ability to pay strict attention to detail will be crucial, and you'll apply both research and problem-solving skills while also drawing upon your knowledge of current events. (SI has also welcomed two photo interns from UT, and they have worked mostly for the remaining a full-time student.

While at SI, interns will have the opportunity to sit in on weekly editorial meetings and, separately, to brainstorm story ideas to pitch for publication. (Some interns have been published in the SCORECARD section of the magazine and some on SI.com.)

Enrollment in the College of Communication is not a prerequisite for application to SI. Writing
samples, whether from The Daily Texan or from an English, political science or art history class, must be strong. SI looks for hardworking, inquisitive individuals who pride themselves on being precise and on turning in immaculate work. Cover letters and résumés with typos will not be considered.

Qualifications: All UT undergraduate and graduate-level students who meet the eligibility requirements to complete an internship for academic credit may apply. Intern applicants are encouraged to consult with their academic advisers about specific internship requirements and to ensure eligibility for a semester away from campus.

Application deadline and process: Interested candidates should submit the following application materials as PDFs, when applicable. Audio, video and photographic or design work samples should be attached, appropriate to the medium. Incomplete applications will not be considered.

- Cover letter that states why you are interested in interning with Sports Illustrated and what area(s) of journalism you hope to experience as an SI intern
- Professional résumé
- A letter/email of recommendation from a UT faculty member (professor or lecturer, not a teaching assistant)
- A letter/email of recommendation from a current or former internship or job supervisor
- Three work samples that illustrate relevant journalistic skills (writing, editing, layout and design, photo, multimedia, social media, broadcast, etc.)

Submit the application via email to Professor Wanda Cash: wgcash@mail.utexas.edu

Fall internship: first Monday in April
Spring internship: first Monday in October
