Special GOV 312L Section -- Washington Campus Program

If you have not yet fulfilled your GOV 312L requirement, please consider registering for a section that includes a special educational experience with the Washington Campus Program (WCP) in our nation’s capital.

In recognition of the tremendous impact that politics and regulation have upon the environment in which companies do business, the WCP has for 35 years provided educational experiences to more than 20,000 MBA students, including many from UT. In spring 2014, McCombs’ BGS Department, in conjunction with the Government Department, is offering for the first time a special section of GOV 312L that will give UT students a WCP experience comparable to that enjoyed by MBAs.

During an intensive week in Washington D.C., students will hear from and interact with leaders from every sector of the Washington power circle. Typical speakers include Senators, Representatives, Congressional staffers, senior policy advisors at Fortune 500 companies, presidents of think tanks, influential lobbyists, and leaders of federal agencies. Past speakers have included Vice President Dick Cheney, Fed Chairman Ben Bernanke, and (then) Senator John Kerry.

The class is composed of four sessions in Austin with BGS Professor David Spence and a mandatory trip to Washington DC during the week of May 19-23, 2014. The unique number for this GOV 312L section is #39015.

Enrollment in the course carries a $1,200 student fee to pay for the programming in Washington, DC, which is substantially cheaper than that paid by MBAs. Students must also pay for air fare and lodging for the five days in Washington, which we will assist in lining up.

Have any questions? Just visit the Washington Campus website-- http://www.washcampus.edu/, or e-mail Professor Spence or Robert Prentice, chair of the BGS Department.

UT Southwestern Medical Center Summer Undergraduate Research Programs

For the 21st consecutive year, UT Southwestern Graduate School of Biomedical Sciences is sponsoring the Summer Undergraduate Research Fellowship (SURF) Program. The goal of
SURF is to give students an intensive, 10-week research experience in a world class research environment. Students immerse themselves in the laboratory and work on individual research projects with UT Southwestern Graduate School faculty. Most areas of modern biomedical engineering, cancer biology, cell biology, molecular biology, biochemistry, genetics, immunology, microbiology, neuroscience, and pharmacology are represented. In addition to research, SURF provides seminars, optional classes in Immunology and Genetics, social events, and an end-of-program poster session. We have increased the number of fellowships for SURF to 85. The SURF website and online application can be found at www.utsouthwestern.edu/SURF.

For the 10th year, UTGSGBS is also sponsoring the Quantitative and Physical Science Summer Undergraduate Research Fellowship (QP-SURF) Program. This program, initially funded by a NIGMS training grant and now funded internally, will accept 10 students who are earning their undergraduate degrees in the field of biomedical engineering, mathematics, computer science, physics, or chemistry. The goal of QP-SURF is to give students an intensive, research experience and demonstrate to students in the physical and quantitative sciences how their knowledge and skill sets are applied in a biomedical research setting. QP-SURF students would carry out their 10-week research project in a biomedical engineering, biophysics, computational biology, or quantitative/analytical chemistry laboratory. QP-SURF students also participate in seminars, optional classes in Immunology and Genetics, social events, and an end-of-program poster session. The program website and on-line application for QP-SURF can be found at www.utsouthwestern.edu/QP-SURF. For the 2nd year, UTGSGBS is highlighting opportunities for undergraduates interested in research at the interface between chemistry and basic biomedical research. We hope you will bring this opportunity to the attention of your chemistry students.

All of the summer programs will run from June 2nd through August 8th, 2014. Participants will be selected based on their letters of reference, course work, and experience. The stipend for the 10-week program is $4,000. If a fellow requires housing, the costs will be covered by the program; however, fellows are responsible for paying their own travel expenses. Application deadline is February 9, 2014.

Flu Shots for Students

Getting a flu shot is the best way to prevent the flu.

The US Centers for Disease Control and Prevention recommend that everyone gets a flu shot every year, unless there are medical reasons they shouldn’t. It takes about two weeks after getting the shot to have optimal protection. Flu season usually starts in October. The flu shot won’t give you the flu. UHS administers the inactivated virus flu vaccine. The viruses in inactivated vaccine have been killed, so you can’t get the flu from the shot.

Insurance billed for: Students with health insurance (except for HMO plans, plans underwritten by insurance companies based outside the United States, or government plans such as Medicare, Medicaid, and Tricare).

NOTE: If your insurance plan won't pay for a flu shot charge after UHS files a claim, the unpaid balance will be billed your What I Owe. You will be responsible for paying that amount. Insured Students Only - Speed up your flu shot clinic check-in! Enter your insurance information in advance online if you haven't done so for a prior UHS visit at MY UHS: https://portal.uhs.utexas.edu/login_directory.aspx

Students with no insurance, HMO plans, insurance plans with companies based outside of the United States or government plans such as Medicare, Medicaid, and Tricare: $10 charge.

STUDY ABROAD

Oxford English Program

The Department of English at The University of Texas at Austin has sponsored a summer program at Oxford since 1984. The Oxford Summer Program gathers students to enjoy life and literature at the University of Oxford, the oldest English-speaking university in the world. In Summer 2014, the Program will be housed in Wadham College. Students take one or two upper-division English classes and enjoy many field trips and theatrical performances. This program is a wonderful balance of academics and fun, an opportunity to get to know Department of English faculty and other students outside the classroom, and a chance to live in an early 17th-century English college in modern-day Oxford.

The objective of the Humanity in Action Fellowship is to facilitate a collective exploration of the social and political roots of discrimination, as well as to provide a forum where potential solutions to some of today's most challenging issues can be considered and discussed. The programs are also intended to instill a responsibility among Humanity in Action Fellows to recognize and address the need to protect minorities and promote human rights—in their own communities and around the world.
