Scholar Research Stipend Guidelines

Important Information

• Each graduate-level scholar is provided with a research stipend of $1,000 per year in both the first year and second year (fellowship year) of the program. A research stipend is not provided in the third year (final postdoc year) of the program.
• Each undergraduate-level scholar is provided with a research stipend of $750 per year for each year of the program (one year for senior undergraduates; two years for juniors).
• The research stipend can be spent on travel and/or materials to support each scholar’s work in the program.
• Scholars must fill out the appropriate form at least 5 business days prior to making any purchase. The University maintains strict policies regarding financial transactions, often to comply with Texas law.
