**Participant Bios**

**Dr. Sue Otto**
Director of the Language Media Center, The University of Iowa

Sue Otto has been the Director of the Language Media Center at the University of Iowa for over twenty years. She is also an Adjunct Associate Professor in the Department of Spanish and Portuguese, specializing in the use of new technologies for language teaching and learning. She is past chair of the executive board of CALICO (the Computer-Assisted Language Instruction Consortium) and past president and past executive director of the International Association for Learning Laboratories. Professor Otto has published and presented extensively on the use of technology in language learning and teaching.

**Dr. James Chan**
Director of the Center for Language Technology and Instructional Enrichment (CeLTIE), The University of Indiana - Bloomington

James Chan is a native speaker of Cantonese and Mandarin Chinese. He complemented his education with many years of experience teaching and managing instructional technology in higher education environments. As the Instructional Development Officer at Hong Kong University of Science and Technology, Language Pedagogy Project Coordinator at Indiana University Bloomington, Director of Education Computer Lab and assistant professor of computer education at Indiana University South Bend, he has gained experience in managing computer laboratories for special purposes and in working with language faculty in integrating leading-edge technology into language learning.

**Dr. Pete Smith**
Associate Vice President for Academic Affairs - Modern Languages, The University of Texas - Arlington

In addition to his duties as Assistant Vice President for Academic Affairs in the Department of Modern Languages, Pete Smith oversees UT Arlington’s Center for Distance Education. He teaches level two German language and culture as well as a course called Globalization, Internationalization, Localization, and Translation, which allows students to explore topics such as multilingual computing, localization and globalization of software and e-commerce, machine-aided translation, machine translation, international integration of content, multilingual mobile devices, and international multicultural media.

**Tyler Gill**
Spanish Instructor and Campus Advisory Council Faculty Chair, Bowie High School, Austin Independent School District

Tyler Gill works in curriculum design and program development, placing his work on the foundation that meaningful technology integration across the curriculum is key to increasing relevance, building relationships, and fostering rigor in 21st Century “digital native” learning communities. His research revolves around Recent Immigrant English Language Learners and the relative lack of programs that support them. He is also a National Writing Project Teacher Consultant, and leads professional development seminars on the topics of digital media literacy, digital literacy for ELLs, and the application of Web2.0 concepts in the language other than English classroom.

**Language Learning 2.0: Emerging Technology**

21st Century Technology in the Foreign Language Classroom

This two-day workshop focuses on technology use in the foreign language classroom. Presenters will discuss innovative techniques for developing materials and delivering instruction for immediate use in high school and college classrooms. Speakers will demonstrate ways to integrate technology into language teaching to help increase time on task for our students, both in and out of class.
